Summary of the ECF Programme

This document uses the same cohort indicators as our Early Career Framework Newsletter and our new cohorts will be added each term.

	September	January	April
2021 - 2022			Y2
2022 - 2023	Y2	Y2	Y1
2023 - 2024	Y1	Y1	

Points to remember:

- If an ECT is working on a part time timetable, they will move through the cohorts as the next cohort working full time catches up to them
- ECTs and Mentors may be in different cohorts
- Mentors may be mentoring ECTs in Multiple cohorts
- If you need to access any content that is out of sync with your own content, please get in touch.
- First Year ECTs and Mentors have Modules (M). Second Year ECTs have Development Cycles (DC) and Second Year Mentors have Seminars (Sem) and Optional Content (OC).
- Fully Trained Mentors do not attend any ECF training. They will have been sent the Fully Trained Mentor Handbooks
- Where optional content is released, this means that the optional content will be sent at this point, however you will have until the end of your programme term to choose to access this content.
