

Early Career Framework

Module Two for Mentors – Precise Actions and Shared Language

Mentor training

Mentor seminar

The mentor seminar focuses on precise actions and shared language. Mentors will explore the importance of setting precise actions and the criteria for these. They'll also consider the importance of having shared language between mentor and ECT.

Mentor self-directed study (optional)

The optional mentor self-directed study focuses on setting precise actions. Mentors can explore further how to set high-quality precise actions with their ECT and how they can refine these to provide support and challenge.
